CARS NEEDED;
ORDERED FREED

Oklahoma City, Okla., May 29.—To move to market that part of the 1913 grain crop remaining in Oklahoma, Kansas and Texas, 4500 cars will be needed, according to a report of railroad traffic conditions made by the Rock Island railroad to the Oklahoma state department of agriculture.

The report comes closely after an order, issued late yesterday in Washington by the interstate commerce commission to five railroads, to unload at once and release in Galveston, Texas, 2700 cars to aid in relieving freight congestion.

The roads affected are the Santa Fe, Katy, Southern Railway in Texas, the Galveston, Houston and Henderson and the International and Great Northern.

PRESBYTERIANS FOR PACT, BUT HANDS OFF IRELAND

Philadelphia, Pa., May 29.—The United States was urged to ratify the treaty and join the league of nations in two resolutions adopted by the general assembly of the Presbyterian church in the United States of America at its closing session here yesterday. The treaty resolution said the refusal of the United States to ratify made this country the "leading stock nation of the world."

Another resolution adopted expressed sympathy to the Protestants of Ireland and recommended a "hands off" policy for the United States government.

GOMPERS AND
ALLEN DEBATE

New York, May 29.—The relations of capital and labor; the right to strike and its legitimacy as regards the effect on the public; the Kansas industrial court law and its significance to the future of the working man, were discussed from all angles in a debate last night in Carnegie hall between Samuel Gompers, president of the American Federation of Labor, and Governor Henry J. Allen, of Kansas.

Governor Allen's main contention was that government has the right to protect the public against strikes when its welfare is imperiled.

Mr. Gompers said no law can prevent a man from stopping work if by doing so he may benefit himself and family. Mr. Gompers labelled the Kansas industrial court law the "un-American slave law" and governor Allen declared he had taken away from Mr. Gompers his divine right to order a man to quit work.

The orators of the debate were punctuated with frequent cheers and bores by adherents of each side and occasional questions shouted from the floor and the balconies.

Once, another time, while Mr. Gompers was referring to the poverty of some workers, a man in the gallery shouted:

"How poor are you?"

Gompers was plainly angered. He demanded the man's name, and shouts of encouragement from his followers and, when the labor leader

had referred to the disturber's remarks as a "cowardly, ungentlemanly insinuation," the labor men shouted with glee.

One shouted: "You tell him, Sam, that's the stuff."

Governor Allen, in conclusion, charged Gompers "remedy for war is more war."

"Mine," he added, "is justice conditional on the impartial judgment of responsible government."

POLICE SHOOT STUDENT OUT FOR LARK IN WISCONSIN

Madison, Wis., May 29.—Karl Jandorf, Grand Rapids, Mich., sophomore at the University of Wisconsin, was shot here late yesterday by a policeman during an argument with students when he attempted to prevent them from taking a barter pole, intended to be burned during an undergraduate frolic tonight. Patrolman Matt Lynch was said to have fired the shot.

Pretty hot, isn't it? Well, it's not going to get any cooler. Are you going to California to dip in the ocean?

Are you going to take a camera along to snap the vamps on the beach and the sea serpent with? Some day you'll be sorry you did not bring back a lot of nice pictures to show the other fellow what a lovely time you had. If you are a married man it will be nice to take pictures of the family, while they are at their outings. It will give a great deal of pleasure during the winter to get these pictures out and remember the fun you had in California at the seashore. We do printing, developing and enlarging, all in a few hours. Bring us your camera problems. Don't wait to get away. Our prices are right and there may be a lot of things to photograph on the way out to the coast. Without equipment you cannot take pictures. We have everything you need.
